HTML5, CSS3, Tailwind CSS

JavaScript (ES6+), React.js

Backend Development

Learning : Node.js, Express.js

Database

Learning : MongoDB, Mongoose

Authentication

Firebase Authentication

Tools & Platforms

Git, GitHub, VS Code, Vite, Netlify

SUMMARY

I am a passionate Junior Web Developer with a strong foundation in HTML, CSS, JavaScript, and React.js, currently expanding my skills in the MERN stack. I have hands-on experience in building responsive and user-friendly web applications, integrating REST APIs, and managing state effectively. Skilled in using modern tools like Git, GitHub, Vite, and Tailwind CSS to deliver clean and maintainable code. Eager to learn, adapt, and contribute to team projects, with a focus on delivering high-quality solutions and continuous professional growth.

PROJECTS

FOOD DONATION PLATFORM
(MERN STACK + FIREBASE)

- Developed a platform for donating and requesting food.
- Integrated REST API for CRUD operations and JWT for secure authentication.
- Frontend built with React, backend with Node.js/Express, database with MongoDB.
